#### **Hardware / Software Inspection & Field-Test**

The goal is to have all teams inspected and field-tested by 10:20 am. Hardware will be located in the pits and Software will be at the main fields. When you get to the field for the test, follow the direction of the Field-Inspector. Please budget your time wisely, as there is a lot to do in a short amount of time. And remember, if you need some help or a hand with something, do not hesitate to ask – That is what gracious professionalism is all about!

#### **Qualifying Match Schedules**

Will be generated by the scorekeepers and technical crew as soon everyone is all checked-in and field systems are a go. Once ready they will be handed out to the teams – extras will be at Pit Administration. Note – if there is a \* (asterisk) next to you team number, that means for that Match you are a surrogate (filler). Your score does not count for you or against you.
